TOY WONDERS' TOY DIRECTORY

Action Toys Subcategory:

The action toys category encompasses many different types of toys. These toys are not only powered by a child's imagination, but a great majority of these action toys are also powered by batteries. For your convenience, the number of batteries and type are stated in the description, and whether or not batteries are included. Click on one of the subcategories below to see more.

Blister Carded Toys & Hang-up Toys Subcategory:

Toy Wonders is a toy importer and a toy wholesale distributor of blister carded toys too. A great majority of impulse buy toys are packaged either on a blister card or in a poly bag with a header. Most of these types of toys find their way onto peg hooks, spinner racks, or in store bins. We have broken this category down into many subcategories. Click on the appropriate subcategory to see more.

Dolls & Play sets Subcategories:

Toy Wonders is a toy importer and toy wholesaler of children's toys. Dolls have been a mainstay in the toy industry. If we look back in history, dolls go way, way back --even before recorded history. Because of the longevity and nurturing appeal, every toy distributor and retailer will have some representation here. However, since this category is very focused on only one gender, it is vital that you focus your attention here and understand your customer base well; after all, you are only targeting half the children's population with this category. Knowing the answers to these questions will make it easier to select the items for his category:

1. In terms of race, what type of people do you service?
2. What type of space can you allot towards this category (e.g. wall, shelf, or counter)?
3. What price points do you need to be at?

Educational Toys & Musical Toys Subcategories:

Parents of all types have always placed extra value on toys that teach. Almost all the educational toys that we market are geared towards adults and children over the age of three. Many ambitious parents push the learning envelope with their children. For those toys geared toward infants and toddlers, we've put the toy's specific age recommendations in their descriptions. For marketability and safety reasons, these age recommendations should be strictly followed.

Sports Subcategories:

Toy Wonders is not just in the toy wholesale business but offers at wholesale a variety of Sports balls and sport play sets. Not only does ball playing build hand eye coordination, dexterity, and team spirit (at times), these balls promotes good old fashion exercise. Click on a subcategory to see more.

Toy Wonders: Your Wholesale Source for Toys & Diecast 1/18 1/24 1/32 & 1/64 scale collector model cars

Highway 61 - Dodge Dart GTS (1969, 1:18, Gold) 60148

Our Products: [Vehicle Scales](#) > [1:18 Scale](#)

Item#: 60148G

60148G HIGHWAY 61 - 1969 Dodge Dart GTS.
1:18 scale diecast collectible model car.

This Dodge Dart is a 10.75"Lx 4"Wx 3"H die cast metal car with openable doors, hood & trunk, fully detailed engine, steerable front wheels, working suspension, and soft interior & rubber tires. This Dodge Dart is manufactured by Highway 61. 60148 in GOLD color with White (like Beige) top. Individually packed in a window box. Box size: 13.75"Lx 6.5"Wx 5.75"H.

The Dart model first made an appearance in 1960 as a full-size sedan, and was an immediate success that prompted Dodge to cut back on the rest of their medium-priced line. Following a significant redesign in 1967, the 1968 Darts only underwent subtle changes in body components with a 318 ci engine rated at 230 hp added as an option. Late in 1967, Dodge introduced the performance-oriented GTS model which eventually came with a 340 ci V8 standard in 1968, with an optional 383ci big block. The light weight and high power ratio of the 340-equipped cars together with the Dart's excellent handling characteristics, made them a drag strip favorite. The '68 Dart became the best-selling compact of the year.

How did Dodge top that? With the '69 Dart, naturally. A new grille was the most obvious redesigned component, with more subtle body changes being made. New for 1969, the Swinger 340 was the lowest-priced high-performance Dodge, and teh 340 4-bbl. V8 delivering 275 hp certainly delivered performance bang for the buck. Dodge loaded the performance-oriented GTS with either the standard 340 V8 or the optional 383 Magnum 4-bbl. V8, both with dual exhausts. Both the Swinger 340 and GTS proudly wore the distinctive "bumblebee stripes" to claim their places of honor in the Dodge Scat Pack.

This authentic 1/18 scale replica from Highway 61 Collectibles is the next in a series of releases crafted to live up to the high standards of the designers and manufactures of the original cars. From the quality of the finish and decoration to the many precision-crafted working features, this

TOY WONDERS

The Dart model first made an appearance in 1960 as a full-size sedan, and was an immediate success that prompted Dodge to cut back on the rest of their medium-priced line. Following a significant redesign in 1967, the 1968 Darts only underwent subtle changes in body components with a 318 ci engine rated at 230 hp added as an option. Late in 1967, Dodge introduced the performance-oriented GTS model which eventually came with a 340 ci V8 standard in 1968, with an optional 383ci big block. The light weight and high power ratio of the 340-equipped cars together with the Dart's excellent handling characteristics, made them a drag strip favorite. The '68 Dart became the best-selling compact of the year.

How did Dodge top that? With the '69 Dart, naturally. A new grille was the most obvious redesigned component, with more subtle body changes being made. New for 1969, the Swinger 340 was the lowest-priced high-performance Dodge, and the 340 4-bbl. V8 delivering 275 hp certainly delivered performance bang for the buck. Dodge loaded the performance-oriented GTS with either the standard 340 V8 or the optional 383 Magnum 4-bbl. V8, both with dual exhausts. Both the Swinger 340 and GTS

Highway 61 - Plymouth Barracuda Hard Top (1969, 1:18, Green) 60133

[Our Products: Vehicle Scales](#) > [1:18 Scale](#)

Item#: 60133GN

60133GN HIGHWAY 61 - 1969 Plymouth Barracuda Hard Top. 1:18 scale diecast collectible model car. This Plymouth Barracuda is a 10.5"Lx 4"Wx 2.75"H die cast metal car with openable doors, hood & trunk, fully plumbed engine, working steering and suspension, detailed interior and soft rubber tires. This Plymouth Barracuda is manufactured by Highway 61. 60133 in GREEN color. Individually packed in a window box. Box size: 14"Lx 6.5"Wx 5.75"H.

1969 found Plymouth in an enviable position: the 1968 Barracuda was powerful and popular, but how to improve on success? In typical '60's Plymouth fashion, they just made it faster. A few cosmetic changes were made here and there, including a new grille and larger side marker lights, but Plymouth made it clear that their "go to dinner" car, as they called it, was a "go to the dragstrip" car as well. The 225ci slant six and the 318ci V8 were still the baseline engine options. The successful 340ci four-barrel V8 was carried over from 1968 while the 383ci four-barrel V8 got an upgraded crankshaft that delivered upwards of 330hp for the Formula S package. But the big news was the premiere of the 'Cuda high-performance package for the 340 and 383 engines, and in the spring of 1969 Plymouth installed their monstrous 440ci V8 for the first time in a street-legal 375hp package. The tried-and-true 440 was capable of rocketing the lightweight 'Cuda from zero to sixty in 5.5 seconds and running a 14.10-second quarter mile. Plymouth now had bragging rights to the largest engine in the escalating pony car wars....but with those came headaches.

Plymouth had finally wrangled a power

Toy Wonders

www.toywonders.com

steering unit under the hood for the 383 Barracuda by 1969, but the 440 left on room for power steering or power brakes. With more than half of the 'Cuda's weight now over the front tires, braking and low-speed handling suffered accordingly. Mopar engineers feared a four-speed manual would eventually shred the rear end, so the 440 'Cudas were fitted with a TorqueFlite automatic. The off-the-line performance disappointed many enthusiasts as the TorqueFlite couldn't upshift as crisply as a manual, and more than not left the rear tires spinning. But on an open road or straightaway, the 440 'Cuda's power more than enough made up for its poor handling characteristics. While the 1969 'Cuda couldn't be labeled a complete success, Mopar engineers marked the lesson learned, and would put them to use soon enough.
