Dolls & Play sets Subcategories:

Toy Wonders is a toy importer and toy wholesaler of children's toys. Dolls have been a mainstay in the toy industry. If we look back in history, dolls go way, way back --even before recorded history. Because of the longevity and nurturing appeal, every toy distributor and retailer will have some representation here. However, since this category is very focused on only one gender, it is vital that you focus your attention here and understand your customer base well; after all, you are only targeting half the children's population with this category. Knowing the answers to these questions will make it easier to select the items for his category:

1. In terms of race, what type of people do you service?
2. What type of space can you allot towards this category (e.g. wall, shelf, or counter)?
3. What price points do you need to be at?

Educational Toys & Musical Toys Subcategories:

Parents of all types have always placed extra value on toys that teach. Almost all the educational toys that we market are geared towards adults and children over the age of three. Many ambitious parents push the learning envelope with their children. For those toys geared toward infants and toddlers, we've put the toy's specific age recommendations in their descriptions. For marketability and safety reasons, these age recommendations should be strictly followed.

Motormax - BMW Z8 Roadster Convertible (1:18, Red) 73106

Our Products: [View All Vehicles](#)

Item#: 73106R

73106R MOTORMAX BMW Z8 Roadster Convertible. 1:18 scale diecast model car. 9.5"L x 4.25"W x 2.5"H diecast metal car with free wheeling, steerable front wheels, detailed engine and interior, and opening doors/hood/trunk. Sits on a display plaque. Box measures 14"L x 6.25"W x 5"H. Manufactured by Motor Max. 73106 in RED color. Individually packed in a window box.

From the design cues fo the famous classic roadster 507 to sneak preview of the concept car Z07 in 1997, BMW has created the year 2000 Z8 roadster. From the long sloping hood to the shark gill cut out vents, the Z8 has captured the spirit of the 507 in a modern and the most elegant and luxurious form. Add machine guns and missiles, it became James Bond's mode of transportation in the new Bond Movie "The world is not enough". Driven by the same V8 engine as the BMW Motorsport M5, combining with lighter construction materials; the Z8 promises acceleration and handling on par with any other exotic sports cars that can cost 2-3 times as much. And with BMW technology, you even get fiber optics for the turn signal lights in the front fenders, replacing the conventional copper wiring and light bulbs. Only 500 production Z8's are scheduled for North American bound in 2000, chanes are: one half of the 340 dealers can sell a brand new first year Z8, besides the demo or display unit they have on the show floor.
