## TOY WONDERS' TOY DIRECTORY

### Action Toys Subcategory:

The action toys category encompasses many different types of toys. These toys are not only powered by a child's imagination, but a great majority of these action toys are also powered by batteries. For your convenience, the number of batteries and type are stated in the description, and whether or not batteries are included. Click on one of the subcategories below to see more.

### Blister Carded Toys & Hang-up Toys Subcategory:

Toy Wonders is a toy importer and a toy wholesale distributor of blister carded toys too. A great majority of impulse buy toys are packaged either on a blister card or in a poly bag with a header. Most of these types of toys find their way onto peg hooks, spinner racks, or in store bins. We have broken this category down into many subcategories. Click on the appropriate subcategory to see more.

## Dolls & Play sets Subcategories:

Toy Wonders is a toy importer and toy wholesaler of children's toys. Dolls have been a mainstay in the toy industry. If we look back in history, dolls go way, way back --even before recorded history. Because of the longevity and nurturing appeal, every toy distributor and retailer will have some representation here. However, since this category is very focused on only one gender, it is vital that you focus your attention here and understand your customer base well; after all, you are only targeting half the children's population with this category. Knowing the answers to these questions will make it easier to select the items for his category:

1. In terms of race, what type of people do you service?
2. What type of space can you allot towards this category (e.g. wall, shelf, or counter)?
3. What price points do you need to be at?

## Educational Toys & Musical Toys Subcategories:

Parents of all types have always placed extra value on toys that teach. Almost all the educational toys that we market are geared towards adults and children over the age of three. Many ambitious parents push the learning envelope with their children. For those toys geared toward infants and toddlers, we've put the toy's specific age recommendations in their descriptions. For marketability and safety reasons, these age recommendations should be strictly followed.

## Sports Subcategories:

Toy Wonders is not just in the toy wholesale business but offers at wholesale a variety of Sports balls and sport play sets. Not only does ball playing build hand eye coordination, dexterity, and team spirit (at times), these balls promotes good old fashion exercise. Click on a subcategory to see more.

## RC2 ERTL Authentics - Oldsmobile Rocket 88 (1950, 1:18, Silver Gray) 39402

Our Products: [View All Vehicles](#)

Item#: 39402SV

39402SV ERTL Authentics American Muscle - 1950 Oldsmobile rocket 88. 1:18 scale diecast model car with opening doors, hood and trunk. Manufactured by RC2 Brands. Individually packed in a window box. 39402 in SILVER GRAY color. GM is a trademark of the General Motors Corporation.

About the car: The Oldsmobile 88 was a full-size car sold by the Oldsmobile division of General Motors and produced from 1949 until 1999. From 1950 to 1974 the 88 was division's top-selling line, particularly the entry-level models such as the 88 and Dynamic 88. The 88 series was also an image leader for Oldsmobile, particularly in the early years (1949-51) when it was one of the best performing automobiles thanks its relatively small size, light weight and advanced overhead-valve high-compression.

In 1950 the Oldsmobile Rocket 88 styling changes included the replacement of a two-piece windshield with a one-piece unit and the addition of the Holiday hardtop coupe to the line. Also a three-speed manual transmission with column shift became available as a "delete for credit" option to the Hydra-Matic automatic transmission. The 88 now outsold the six-cylinder 76 lineup, which was dropped entirely after the 1950 model year.

The Rocket engine debuted in 1949, originally named for its principal designer, Charles Kettering, as "Kettering Power". Corporate GM policy disallowed that, so the powers that be opted for "Rocket Power". It was termed the Rocket 88 engine. This engine was big in NASCAR, in fact with the automatic (no manual transmission

www.toywonders.com

available early on), the Rocket won 8 out of 10 races in 1950. This engine had a number of interesting features: hydraulic lifters, over square bore-stroke ratio, forged crank with counterweights, aluminum pistons, full-floating wrist-pins, and a dual plane intake manifold.
